

Avast Driver Updater

Scan, update, and fix all your PC's drivers so it can perform at its best

Reduce problems with connected devices

Driver Updater finds the latest driver versions for maximum stability and fewer bugs. Helps solve connection problems, mouse or printer issues, and much more.

Enjoy faster browsing

Keep your Wi-Fi connection from dropping. Driver Updater eliminates these interruptions with just a few clicks so you always stay connected.

Prevent freezing and crashing

Update faulty and old drivers — the top cause of crashes, freezes, and bluescreens — so you don't have to miss a beat.

Improve graphics and audio quality

Boost performance by updating graphics and audio drivers so you can enjoy crisper audio and images in multimedia apps, streaming services, and games.

Scan, update, and fix all your PC's drivers to keep your computer and its accessories running smoothly

If you're having problems with your PC, or any connected devices, then it could be due to your drivers. There's no need to spend time trying to fix these problems yourself.

Scans in real-time

Our new driver engine scans in real-time to make sure you have all the latest drivers installed on your device.

Solves hardware related problems

Driver Updater unlocks the potential of your current connected devices, revives old hardware, and resolves 'Unknown device' problems by finding the right driver for each device.

Automatically scans over 5 million drivers for peak PC performance

Driver Updater detects old, corrupt, missing, or outdated drivers, fixes bugs and vulnerabilities, and backs up and restores current drivers.

Seamlessly installs drivers from more than 1,300 major brands

Our one-click scan makes it easy to find the drivers you need for your printer, scanner, camera, speakers, keyboard, router, and other connected devices. Drivers are installed one at a time to avoid hardware conflicts.

Avast Driver Updater is loaded with features

- ✓ Automatically scans your computer for corrupt, missing, and outdated drivers
- ✓ Safety checks by Avast Threat Labs to make sure every single driver is safe and secure before it gets to your PC
- ✓ Checks more than 300,000 hardware devices
- ✓ Builds and maintains your unique PC profile for fast access to the drivers you need
- ✓ Backs up your drivers to help revert unwanted changes
- ✓ Prevents hardware problems with a scaled installation process
- ✓ Scans weekly or on-demand for the latest updates
